

SMART TECHNOLOGY & PROVEN RELIABILITY,
ENGINEERED TO MEET SPECIFICATION REQUIREMENTS

Schlage Encore™

Smart Lock &
Schlage Breeze™ Solution

**The future
of access
control.**

The future of access control.

Cloud is the future of access.

At Allegion, our foundation is built on trusted mechanical and electronic solutions hardware, but our focus is now firmly on digital innovation. Through leading brands like Schlage, we are transforming the door from a simple barrier into a smart, frictionless touchpoint, thus bridging physical security with digital convenience to elevate the modern living experience.

Smart technology and proven reliability,
engineered to meet specification requirements

Schlage Encore™ Smart Lock

To meet the evolving demands of modern buildings, we continuously invest in developing the next generation of access technology. Built on a trusted foundation already respected by the industry, this advanced lock is delivering an even smarter, more robust solution for today's multi-residential and light commercial spaces.

- Engineered and assembled in Australia, the Schlage Encore™ Smart Lock is designed for environments where both security and fire-rating* compliance are essential.
- Perfect for high-traffic, multi-user settings, it is suited for residential apartment complexes, office buildings, retirement villages, and other managed properties, where convenience, control, and ease of use are critical.
- Offering numerous access options, including the Schlage Breeze app via Bluetooth™, a keypad, RFID tags, a fingerprint scanner, and mechanical keys, the Schlage Encore™ Smart Lock enables simple and reliable access management for residents, staff, and guests.
- For remote access, the lock can be paired with a Schlage Breeze™ Wi-Fi Bridge (BZ100) or Schlage Breeze™ Wired Bridge (BZ100-P).

Engineered
& assembled
in Australia

IP65 weather
rated (external
escutcheon)

Suitable for
fire-rated doors*

Versatile
installation,
tubular latch or
mortice lock

DDA Compliant

*When used with approved Legge 991 Mortice Lock or 48009164 Schlage Tubular Latch on suitable fire-rated doors. Refer to fire door manufacturer for more information.

COMPREHENSIVE FEATURES

Smart connectivity

Easy to set up and program using the Schlage Breeze app
Program and manage access codes for temporary or recurring visitors
Use voice commands via Google Assistant and Amazon Alexa

Premium build & compliance

DDA and fire* compliant
IP65 weather-rated (external escutcheon) for harsh environments
Engineered & assembled in Australia

Fire-rating	Tested up to 2 hours. Refer to fire door manufacturer.

Credentials

Physical (cards/RFID tags)	MIFARE Classic
Encoder	Schlage SCEBRZENC

KEY APPLICATIONS

Ideal for multi-user environments, the Schlage Encore™ lock delivers secure and compliant access for multi-residential apartments, light commercial spaces, retirement villages and more.

Small commercial & co-working spaces

Secure office doors with capacity for 300 fingerprints and 200 RFID tags. Utilise passage mode during business hours and auto-locking after hours.

Multi-Residential & Built-to-Rent

Perfect for both external and internal apartment doors, Schlage Encore™ is designed specifically for multi-residential projects to amplify the resident experience and streamline building operations. Fire-rated* and DDA-compliant, the lock allows property managers to easily control access for hundreds of residents with RFID tags, fingerprints, or integrated proptech apps.

*When on suitable fire-rated doors. Refer to fire door manufacturer for more information.

TWO PATHWAYS OF CONNECTIVITY FOR MULTI-RESIDENTIAL LIVING

Whether you need a standalone cloud access system for multiple locks or a seamless smart building integration through an app, the Schlage Encore™ provides flexible solutions. Elevate the resident experience with two flexible pathways:

1

Seamless integration with your selected 3rd party property tech

Single resident app: residents enjoy the ultimate convenience of using one app to unlock their doors, book amenities, and manage their living experience.

Flexible integration: Schlage Encore™ works seamlessly in the background, allowing your proptech solution's interface to shine.

2

Standalone cloud solution

Take full control of your building's security with our cloud-based Schlage Breeze™ platform.

Centralised management: building owners and facility managers can easily issue, revoke, and monitor resident access from anywhere.

Reduce admin overhead: eliminate the cost and hassle of physical key management, lost keys, and lockouts.

Short-Term Rentals

Eliminate physical key handovers. Hosts can generate temporary or scheduled PIN codes remotely via the Schlage Breeze™ app for guest access.

Premium smart homes

Durable and weather-rated (IP65) front door security that integrates seamlessly with Google Assistant and Amazon Alexa.

Aged care & assisted living

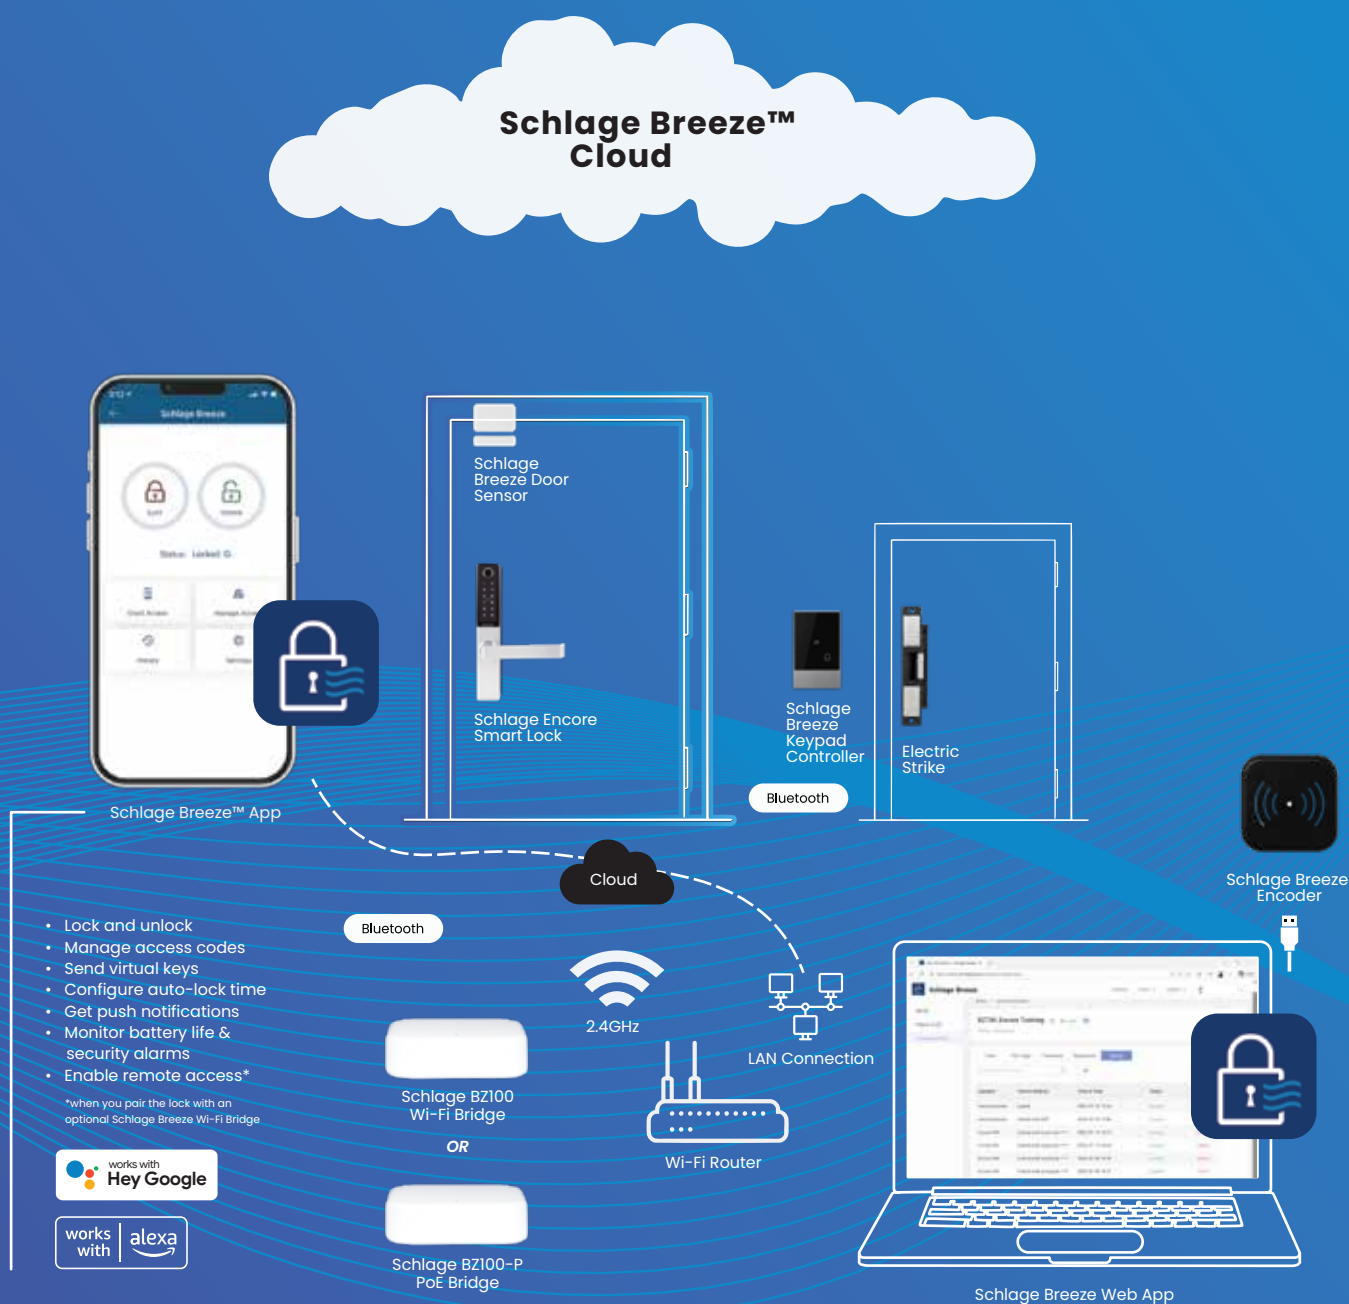

Keyless entry (fingerprint or RFID tag) paired with DDA compliant design and real-time door monitoring (REX/status) to ensure resident and worker safety and accessibility.

SPECIFY SMART ACCESS IN YOUR EARLY DESIGN PHASE

- **Premium appeal** | Position your new project with high-end, smart access features that attract tenants and buyers.
- **Effortless onboarding** | Onboarding and daily use are designed to be frictionless for both building staff and residents.
- **Trusted local support** | Backed by responsive, local ANZ technical support.

Schlage Breeze™ Standalone Cloud Solution

Take full control of your building's security with our cloud-based Schlage Breeze™ platform, and connect multiple Schlage Encore™ Smart Locks. The Schlage Breeze™ app provides full smart lock programming and user management experience.

WORKING WITH US

At Allegion we believe in delivering industry-leading services to all of our valued customers and installers.

Smartly designed, reliable products

We bring you a comprehensive range of innovative technology from some of the industry's best engineers who prioritise durable and long-lasting designs. Coupled with market-leading warranties, we can offer the right hardware for your project.

End-to-end solutions

The Allegion family of more than 40 brands and services means that we can offer complete, end-to-end solutions and seamless access control: everything from residential to commercial locks, exit devices, openers and closers, to electronic access control.

A dedicated technical hub available on hand

A centralised, local Tech Hub allows us to support our customers and the industry to ensure expert advice on hardware selection, building codes, installation tips and more.

AU: techsupport.au@allegion.com or 1300 898 596
NZ: nzsupport@allegion.com or 0800 477 869

Specification services

With a standard turnaround of up to 10 working days, our experienced scheduling team can specify the right door hardware for any application. We ensure all necessary building codes are met, effectively reducing risk for all parties involved in the project.

About Schlage

Long trusted and chosen by those in the industry, Schlage provides durable electronic security solutions for various industries, including multifamily and commercial buildings as well as small and medium businesses. Our products focus on durable access control solutions, offering digital locks, smart, and mobile credentials for secure and flexible access management.

About Allegion

Allegion (NYSE: ALLE) is a global pioneer in seamless access, with leading brands like CISA®, Interflex®, LCN®, Schlage®, SimonsVoss® and Von Duprin®. Focusing on security around the door and adjacent areas, Allegion secures people and assets with a range of solutions for homes, businesses, schools and institutions.
