VERTA™ SERIES

# Verta [värd]

- 1. From Swedish (“worth, worthy”)**
- 2. (archaic) match (equal or superior in comparison)**

## A NEW LEVEL OF DESIGN

Design elevates the functional to the sublime. Clever design is unobtrusive, yet distinct. Beautiful design delights the senses, challenges us and inspires joy every day.

Inspiration is a source of innovation. Stemming from modern trends, Verta showcases the synchronicity between inspiration, innovation, design and style.

Architectural lines create surfaces that reflect light in every direction; tactile surfaces surprise and delight; lineal planes soften to curved edges – Verta’s design features set a new standard for innovative style.

**“Design is a tool we  
use to touch people,  
engage their senses and  
enhance their lives.”**

Michael Graves, Architect

## DESIGNED RIGHT HERE

Our design story starts with a vision of a designer range of door and window furniture with a modern twist.

A locally based team of design specialists developed that vision further, influenced by classic designs, modern trends and architectural spaces.

Starting with a classic square shape, the designers added in subtle design features to define, elevate and modernise.

From the bevelled edges to soften hard lines, architectural lines to reflect light and gently curved handles for tactility, Verta is a modern reinvention of a classic; precisely engineered functionality with design at its core.

## LINEAL

*Subtle, architectural lines  
create planes to reflect light  
in every direction*

## TACTILE SURFACE

*Straight edges transition to gently  
rounded backs, curving into your hand  
and creating a soft touching point*

**STAINLESS STEEL**

*Constructed from marine-grade stainless steel gives Verta strength, presence and lasting beauty*

**RADIUS CORNERS**

*Hard, straight lines soften into a radius corner, creating a juxtaposition between straight and curved*

## ALL THE ELEMENTS

Beautifully designed products need attention to detail from creation to completion. Every element of Verta has been sourced, crafted and finished by experts.

Each piece of Verta is constructed from stainless steel. We start with one of the highest grades of stainless steel available - 316 marine-grade - sourced from an expert in the material.

No compromise is made during construction. Solid stainless steel is used throughout, moulded nylon tips are seamlessly melded to vents, radius corners are micro-millimetre perfect and curved edges are polished with watch-maker precision.

After construction, Verta is tested. And tested. And tested again. To endurance standards of 200,000 cycles.

Verta's precision engineering, uncompromised design and superior construction is the perfect balance between functionality and beautiful design.

Entrance Pull Handle

## GRAND ENTRANCES

Create a grand entrance to your home with Verta's Entrance Pull Handle. Make a bold statement with your front door and showcase stylish accents throughout your home.

Enchant your visitors with classic lines and modern design; delight senses with tactile surfaces, hard steel and soft edges. Enjoy a grand entrance each time you enter your home.

Constructed from 316 marine-grade stainless steel.  
Suitable for internal and external use.

**“Fashion is architecture:  
It is a matter of proportions.”**

Coco Chanel

## Internal &amp; External

## OPEN UP

Close one door, open another. Hide away or reveal a room. Match the back door to the front, use the same lever on a cupboard as on the bedroom door. Inside or out, Verta's designer accents reflect and enhance your individual style.

Constructed from solid, 316 marine-grade stainless steel.

## Windows

Low Profile

High Profile - Vented

## BREATHE

Let fresh air in. Circulate, cleanse and breathe. Create fresh, invigorating spaces throughout your home with vented window fasteners. Cleverly designed, Verta's window fasteners open up unobstructed views and blend seamlessly into any interior.

Constructed from solid, 316 marine-grade stainless steel.  
Available in high profile (vented) or low profile options.  
Non-marking moulded nylon tips.

Non-marking lock tabs

**“Love of  
beauty is taste.  
The creation of  
beauty is art.”**

Ralph Waldo Emerson

**“Beauty awakens  
the soul to act.”**

Dante Alighieri
