

Briton

7500 Series

Pivot set

The Briton 7500 Series is designed to accommodate architectural and oversized doors. Pivot sets provide a seamless way of hanging doors, with the option to be swinging in either direction. It suits doors with a minimum thickness of 40mm, and a width up to 1400mm.

Each pivot set comes complete with top and bottom pivots and door components, including all required parts to complete installation on either a timber or metal door.

Features

- Adjustable top pivot set
- Stainless steel cover plate for top pivot
- Suitable for timber and metal doors. Supplied with all required fixings
- Needle roller bearing for top pivot
- Suited to doors with a minimum thickness of 40mm and a width up to 1400mm. Maximum door weight is 250kg
- Height adjustable bottom strap for easier installation
