

# R40 Series Magnetic door holders

Fire and smoke door magnetic holder, satin chrome finished, elegant appearance. Installed on fire and smoke doors in projects where doors are required to be held in the open position for both pedestrian and general traffic, the devices have to be linked into a buildings fire/smoke alarm system.

Power is removed from the devices and the doors are released to close, preventing the spread of fire and/or smoke to other areas. The devices are fire tested to a rating of 4 hours and are supplied either 12 or 24VDC.

## Features

- Holding force of up to 250kg
- 12 and 24 VDC voltage options
- Floor mount or wall mount

| Warranties |                                 |  |
|------------|---------------------------------|--|
| Mechanical | 2 years                         |  |
