Push/Pull Plates

General Hardware

The Legge range of push and pull plates are ideally suited to heavy duty applications such as hospitals, schools and high usage public facilities. The products are available in a wide variety of sizes and handle options to suit the majority of installation requirements.

Features

- SUS304 Grade stainless steel
- Concealed and visible fixing options
- Radius and square corner models
- Size options suit most installation requirements
- Engraving options available

Testing and Compliance

Fire Rating:
Successfully tested on fire door assemblies in accordance with AS1905 Part1: Fire resistance doorsets. Check with fire door manufacturer prior to installation.

Accessibility:
Compliant to the AS 1428:1-2009 Design for Access and Mobility

Caution:
When door closers are installed and adjusted to meet reduced opening force requirements, there may be insufficient power to reliably close and latch the door, depending on prevailing operating conditions.

Note:
In areas of high wind pressure and/or air conditioning pressures, the LCN Automatic Door Operators are recommended.
